

CLAIMS

[1] A drain cleaner provided with
an equal width strip body having a handle at its front
end and

a reel body having a rotary member to which a rear end
of the strip body is attached and reeling in or playing out the
strip body to or from the rotary member by rotating this rotary
member.

[2] A drain cleaner as set forth in claim 1, wherein
at least one edge of the strip body is provided with a
flexible member with a high ability to closely contact a floor etc.
along a long direction of the strip body.

[3] A drain cleaner as set forth in claim 1, wherein the
flexible member is a rubber member.
